Our city's meticulous appearance makes us proud. We are aware of the chances it gives its population to be resourceful, and its ever-present mindfulness for improvement. The citizens, industry, and government of Lamar are partners in enterprise. There is no place for pettiness but progress. We have a burning and vital interest in the surrounding community of fine farm homes and people, the abundance yielding fields, and the beauty provided by all. To all this, our environment, we dedicate our annual.

A wide awake town of 4,000!

Lots of room to love life!

The fine city park and public pool

Fine fields--friendly farmers

Water, water everywhere and not a drop to drink will never be said about Lamar!

Abundant crops and livestock make our community rich in food production.

We are thankful for the love and kindness shown to us and the everhelping hands, ready to steady us, should we falter, for teaching us the highest human ideals in our lives and participating with us wholeheartedly. We dedicate this annual to the binding tie, the home, and the fine examples to follow, our parents.

Constructiveness at school and at home!

Parent participation in activities

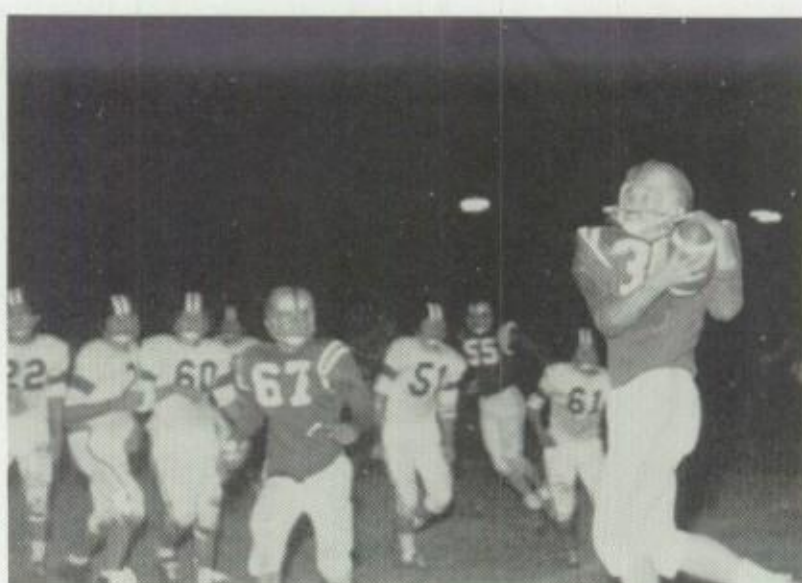

A gracious city home.

A fine farm home.

Enthusiastic attendance boosts pride in our community.

Our parents support us in all activities.

The life and vitality of the community provide industry for our needs. We are proud of the sources of livelihood and the surpassing products provided by the business and industry in Lamar. With a mutual regard for all, they are managed on a basis of fair dealing. There is always an agreeable air present when transactions are taking place.

Since 1950, Lawn Boy has doubled its plant capacity, and is now distributing the world over.

Busy merchants provide us with fine products.

The suppliers who keep us "on the go"

Smith Brothers Manufacturing Company, one of a chain of six factories, is advantageously located in Lamar.

The M.F.A. elevator is serving eight nearby counties as a place for federal storage of grain and is equipped to store 550,000 bushels bulk.

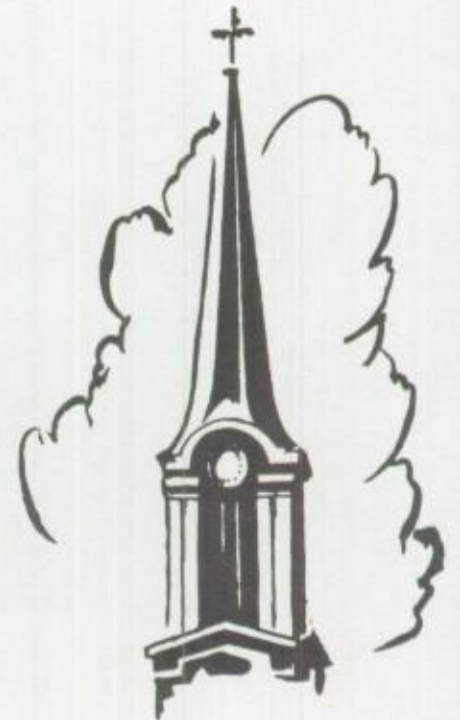

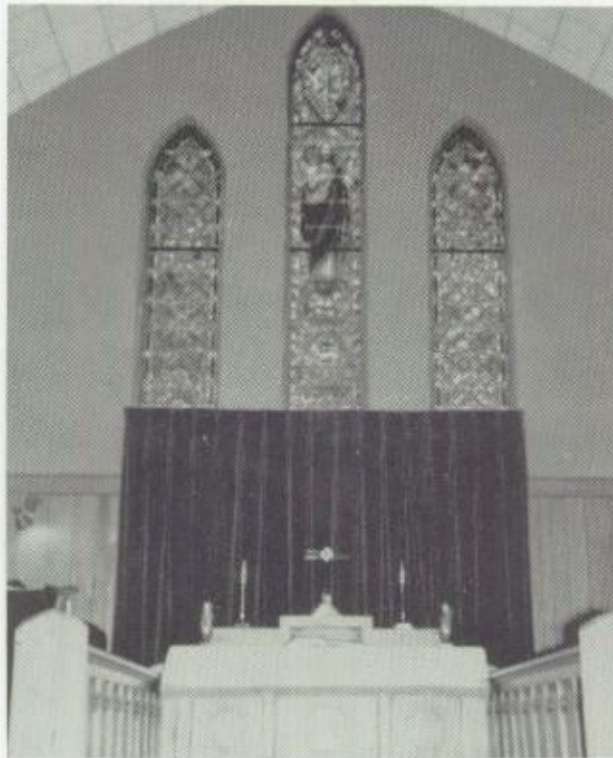

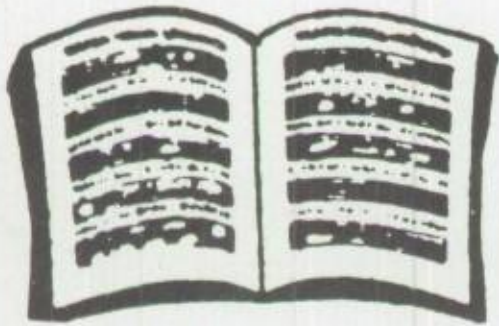

The F.M. Thorpe Manufacturing Company is a home-owned Manufacturing Company and the result is growth, which is evident everywhere in Lamar.

For their spiritual guidance in our lives. Lamar has approximately thirteen denominations with active attendance. The growth of our churches has required expansion. Many new buildings have been erected. We appreciate the helpfulness and thoughtfulness with which they have helped shape our lives. An everlasting influence, not to be forgotten-----

The newly constructed First Christian Church of Lamar.

Lamar maintains a triple A classified school system. The high school offers a broad program of studies totaling fifty-two units, and adult education classes. We are extremely thankful for the opportunity to better ourselves in this excellent school system. The chance to learn is forever present, but without proper guidance with it, it is entirely improbable we would be able to succeed in absorbing it.

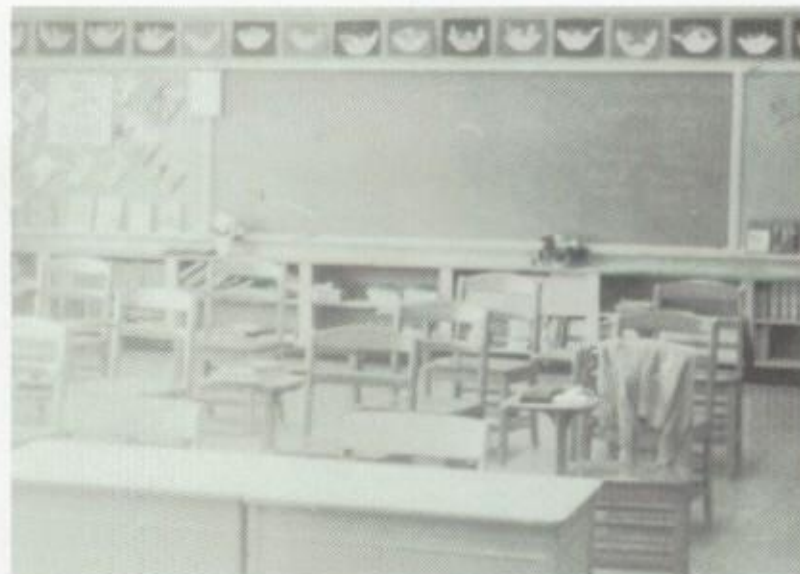

Better schools make better communities.

The grade school provides a pleasing atmosphere in which to work.

Classrooms conducted in constructive calmness.

A nice place to learn to learn.

The spacious auditorium provides more than adequately for our needs.

Education unlimited!

Enjoyable, refreshing, and healthful recreation in Lamar provides various activities. The population is extremely interested in providing entertainment for everyone. An ornate fifty-four acre park, a comfortable Plaza Theater or modern Drive In, a nine-hole golf course, weekly parties or athletic events, spacious swimming pool, skating, hunting, and fishing are just a few of the many ways to enjoy oneself in Lamar.

The recently constructed pool has a capacity for over 500 persons daily.

Relaxing enjoyment for movie-goers is provided in the Plaza Theater.

Our cafeteria is a place to fairly, freely, and fully enjoy fun!

Skating skills can be exhibited here with fine art.

The new golf course provides plenty of exercise and relaxation.

Whereas, character, scholarship, leadership, and service are cardinal qualities worthy of encouragement in all schools, therefore the National Honor Society of Secondary Schools of the National Association of Secondary School Principals gives grants and delegates through the authority of this Charter the privilege and power to establish, conduct and administer the

Lamar High School Chapter

as a local Chapter of the

National Honor Society of Secondary Schools

This Charter Number 8573 is given and granted this First day of December Nineteen Hundred Fifty-nine by the National Council whose signatures are affixed below:

Leah M. Lane George W. Jankis J. H. Moon
Robert L. Foss Sister Mary Kellen O'Sullivan
Howard R. Holmes Clayton E. Marsh Eugene Smith
Carl E. Eichen

The National Honor Society was founded in 1921 by members of the National Association of Secondary School Principals to stimulate scholarship and to recognize the qualities of leadership, service, and character in secondary school students.

This is the first National Honor Society Charter ever issued to Lamar High School.

The students in our school who become members are selected by members of the faculty. These members are outstanding in scholarship, service, leadership, and character. Not more than 5% of the sophomore class, 10% of the junior class, nor 15% of the senior class can be selected for membership.

The objective of our chapter is to create an enthusiasm for scholarship, to stimulate a desire to render service, to promote worthy leadership, and to encourage the development of character in the students of Lamar High.

Active and graduate members are entitled to wear the emblem adopted by the National Honor Society.

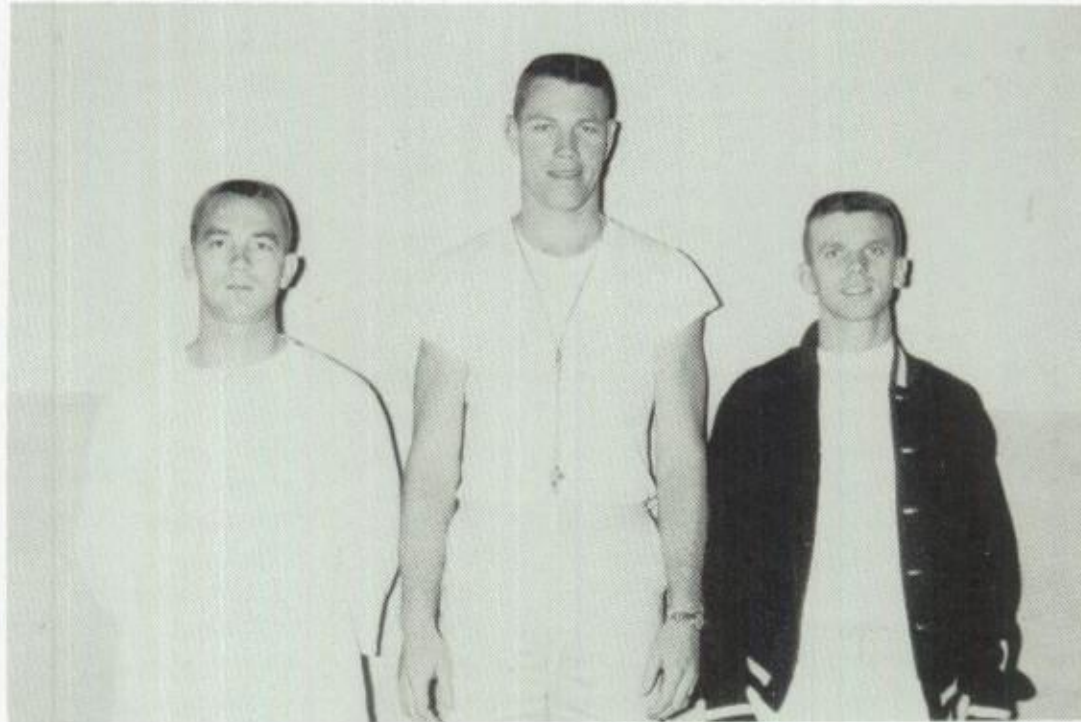

John Palen, president of the student body, receives the National Honor Society Charter from Mr. Couch and Mr. Dermott.
